

# Food Waste Disposal

Less Noise

Economical

Better Quality

Pest Free

Highly Durable

Easy to Install

## Food Waste Disposal Commercial & Domestic Solutions

Cleaning up after meals gets easier with Schonbach Food Waste Disposal unit. Now anyone can safely and hygienically wash food waste away. No more leaving them in the bin where they can cause odour, attract pests and become covered in bacteria. A food waste disposer is a device, usually electrically powered, installed under a kitchen sink between the sink's drain and the trap. The disposal unit shreds food waste into pieces small enough generally less than 2 mm (0.079 in)—to pass through plumbing.

As you can get rid of food waste it allow you to have more space on your countertop. There are three units designed which are Pablo, Marco & Mario by our Italian designers, specifically designed to ensure optimal performance, durability and longevity, and thanks to a unique permanent magnet motor, Schonbach Food Waste Disposal Units reach high RPM in fraction of seconds, producing the most torque needed to grind as it comes in DC and AC motor to choose from. By running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.

**1** Turn on tap

**2** Turn on the food waste disposer

**3** Pour food waste into the machine to grind. After all food waste are gone, turn of the machine and water.

## Benefits for Society & Municipality

**1.**

No door to door collection

**2.**

Lesser Dustbin or Bags

**3.**

No More Waste Smell

**4.**

Lesser Cost for transportation

**5.**

No more Landfills

**6.**

No Spillage on Streets

## A Hygienic Kitchen, a Happy Family

Happier, Healthier and Hygienic Household + Savings in Maintenance Cost

Immediate Benefits	✓ Convenience	No need to collect, store or dispose food waste manually
	✓ Cleanliness	Lesser waste in the kitchen
	✓ No foul odour	Immediate disposal of waste leads to no overnight food waste in dustbins
	✓ Lesser insects and pests	Cockroaches, flies, rats breed in the presence of food waste accumulation This is significantly reduced
	✓ Lesser infection	Germs breed in the presence of food left over areas. This is also reduced
Medium Term Benefits	❖ Environmental Contribution	Individuals feel a sense of pride by supporting the “No Food Waste to Landfills” movement
	❖ Lower society maintenance	Food waste can be converted to electricity for society lighting. Lesser burden on apartment association to manually dispose waste – so lesser society costs

## What Can I Grind?

Yes

FRUITS

VEGGIES

BONES

LEFTOVERS

UNEATEN FAST FOOD

VEGGIES/PEELS

OIL

GREASE

ANY NON-FOOD ITEMS

No

## Product and specifications

### Pablo

Usage	Residential & Commercial
Horse Power	1 HP
Voltage	110V / 220V
Input Power	750 watts
Power Factor	IP54
Frequency	50hz, 60hz
Rotary Speed	1600 RPM
Motor Type	AC Induction Motor
Safety Protection	Overload Protection
Sound Proof System	Double Hollow Structure
Optional Sink	140mm, 160mm, 180mm
Noise Level	Max 25 db
Air Switch	Included
Grinding System	Stainless Steel
Grinding Volume	1450 ml
Warranty	1 Year
Shelf Life	7 - 8 Years
Net / Gross Weight	8 / 9 kgs

Usage	Residential & Semi Commercial
Horse Power	0.75 HP
Voltage	110V / 220V
Input Power	560 watts
Power Factor	IP54
Frequency	50hz, 60hz
Rotary Speed	3000 RPM
Motor Type	Magnetic DC Motor
Safety Protection	Overload Protection
Optional Sink	140mm, 160mm, 180mm
Noise Level	Max 25 db
Air Switch	Included
Grinding System	Stainless Steel
Grinding Volume	1450 ml
Warranty	1 Year
Shelf Life	5 - 6 Years
Net / Gross Weight	6 / 6.5 kgs

### Marko

# Mario

Usage	Commercial & Industrial
Horse Power	1.5 HP
Voltage	220V -240V
Input Power	750 watts
Power Factor	IP54
Frequency	50hz
Rotary Speed	1500 RPM
Motor Type	AC Motor
Safety Protection	Overload Protection
Noise Level	Max 50 db
Air Switch	Included
Optional Sink	114mm or 140mm
Grinding Capacity	100 - 300 kg/h
Grinding Volume	1500 ml
Warranty	1 Year
Shelf Life	4 - 6 Years
Net / Gross Weight	40 / 45 kgs
